NOTE:

- The five (5) products licensed include the following:
  - Inpatient & Surgical Care (ISC): Manage, review, and assess people facing hospitalization or surgery proactively with nearly 400 condition-specific guidelines, goals, optimal care pathways, and other decision-support tools.
  - General Recovery Care (GRG): Effectively manage complex cases where a single Inpatient & Surgical Care guideline or set of guidelines is insufficient, including the treatment of people with diagnostic uncertainty or multiple diagnoses.
  - Recovery Facility Care (RFC): Coordinate an effective plan for transitioning people to skilled nursing facilities (SNFs) and inpatient rehabilitation facilities (IRFs).
  - Chronic Care (CCG): Evaluate needs, identify goals, develop personalized care plans, and support effective self-care. The modular design supports quick and efficient assessments and enables you to manage multiple comorbidities and behavioral health conditions.
  - Behavioral Health Care (BHG): Provides evidence-based guidelines to help healthcare professionals guide the effective treatment of patients with psychiatric disorders.

- This document provides a high level summary of customizations and modifications made to MCG care guidelines (hereinafter referred to as “customized guidelines”).
- Customized guidelines are available on request.
- Benefit plans vary in coverage and some plans may not provide coverage for certain services discussed in the customized guidelines. Coverage decisions are subject to all terms and conditions of the applicable benefit plan, including specific exclusions and limitations, as well as applicable state and/or federal law. The customized guidelines do not constitute plan authorization or a guarantee of payment, nor are they an explanation of benefits.
- We reserve the right to review and modify the MCG care guidelines 23rd edition or customized guidelines at any time.
- No part of this publication may be reproduced, stored in a retrieval system or transmitted, in any form or by any means, electronic, mechanical, photocopying, or otherwise, without permission from the health plan.
- Issue Date: March 22, 2019 / Publish Date: June 24, 2019 for MCG care guidelines 23rd edition and corresponding customized guidelines for ISC, GRG, RFC, CCG and BHG.
- The June 7, 2019 Issue Date reflects review and approval of the following new customization to MCG care guidelines 23rd edition based on November 1, 2019 Publish Date:
  - ISC Chemotherapy (W0162)
- The August 9, 2019 Issue Date reflects review of the following new customization to MCG care guidelines 23rd edition based on November 1, 2019 Publish Date:
  - ISC Repair of Pelvic Organ Prolapse (W0163)
CUSTOMIZATIONS - BACKGROUND INFORMATION

CUSTOMIZATIONS - INPATIENT & SURGICAL CARE (ISC) GUIDELINES

- **CARDIOLOGY**
  - Angioplasty, Percutaneous Coronary Intervention (W0120)
  - Atrial Fibrillation (W0114)
  - Electrophysiologic Study and Implantable Cardioverter-Defibrillator (ICD) Insertion (W0011)
  - Electrophysiologic Study and Intracardiac Catheter Ablation (W0012)
  - Left Atrial Appendage Closure, Percutaneous (W0157)

- **CARDIOVASCULAR SURGERY**
  - Abdominal Aortic Aneurysm, Endovascular Repair (W0084)
  - Aortic Valve Replacement, Transcatheter (W0133)
  - Cardiac Septal Defect: Atrial, Transcatheter Closure (W0016)
  - Cardiac Septal Defect: Ventricular, Repair (W0093)
  - Cardiac Valve Replacement or Repair (W0089)
  - Heart Transplant (W0017)
  - Percutaneous Revascularization, Lower Extremity (W0121)
  - Sympathectomy by Thoracoscopy or Laparoscopy (W0044)

- **COMMON COMPLICATIONS AND CONDITIONS**
  - Preoperative Days (W0130)
  - Venous Thrombosis and Pulmonary Embolism: (W0136)

- **GENERAL SURGERY**
  - Fundoplasty, Esophagogastric, by Laparoscopy (W0158)
  - Gastric Restrictive Procedure with or without Gastric Bypass (W0054)
  - Gastric Restrictive Procedure with Gastric Bypass by Laparoscopy (W0014)
  - Gastric Restrictive Procedure without Gastric Bypass by Laparoscopy (W0033)
  - Gastric Restrictive Procedure, Sleeve Gastrectomy, by Laparoscopy (W0102)
  - Hiatal Hernia Repair, Abdominal (W0159)
  - Hiatal Hernia Repair, Transthoracic (W0160)
  - Liver Transplant (W0034)
  - Mastectomy, Complete (W0002)
  - Mastectomy, Complete, with Insertion of Breast Prosthesis or Tissue Expander (W0022)
  - Mastectomy, Complete, with Tissue Flap Reconstruction (W0023)
  - Mastectomy, Partial (Lumpectomy) (W0008)

- **HEMATOLOGY – ONCOLOGY**
  - Chemotherapy (W0162)

- **NEONATAL FACILITY LEVELS AND ADMISSION GUIDELINES**

- **NEONATOLOGY**
  - Newborn Care, Routine (W0087)
  - Newborn Care, Term, with Severe Illness or Abnormality (W0106)
  - Sepsis, Neonatal, Confirmed (W0107)
  - Sepsis, Neonatal, Suspected, Not Confirmed (W0108)

- **NEUROLOGY**
  - EEG, Video Monitoring (W0115)

- **OBSTETRICS AND GYNECOLOGY**
  - Cesarean Delivery (W0045)
  - Hysterectomy, Abdominal (W0109)
  - Hysterectomy, Laparoscopic; Hysterectomy, Vaginal, Laparoscopically-Assisted (W0010)
  - Hysterectomy, Vaginal (W0110)
  - Laparoscopic Gynecologic Surgery, Including Myomectomy, Oophorectomy, and Salpingectomy (W0026)
**ORTHOPEDICS**
- Acromioplasty and Rotator Cuff Repair (W0139)
- Ankle Arthroscopy (W0155)
- Cervical Diskectomy or Microdiskectomy, Foraminotomy, Laminotomy (W0071)
- Cervical Fusion, Anterior (W0111)
- Cervical Fusion, Posterior (W0112)
- Cervical Laminectomy (W0097)
- Hip Arthroplasty (W0105)
- Hip Arthroscopy (W0096)
- Hip Resurfacing (W0098)
- Knee Arthroplasty, Total (W0081)
- Knee Arthroscopy (W0113)
- Knee Arthrotomy (W0140)
- Lumbar Diskectomy, Foraminotomy, or Laminotomy (W0091)
- Lumbar Fusion (W0072)
- Lumbar Laminectomy (W0100)
- Shoulder Arthroplasty (W0137)
- Shoulder Hemiarthroplasty (W0138)
- Spine, Scoliosis, Posterior Instrumentation (W0116)

**PEDIATRICS**
- Diabetes, Pediatric (W0117)
- EEG, Video Monitoring, Pediatric (W0122)
- Fundopasty, Esophagogastric, by Laparoscopy, Pediatric (W0161)
- Heart Transplant, Pediatric (W0123)
- Liver Transplant, Pediatric (W0124)
- Lung Transplant, Pediatric (W0125)
- Renal Transplant, Pediatric (W0126)
- Spine, Scoliosis, Posterior Instrumentation, Pediatric (W0156)

**THORACIC SURGERY AND PULMONARY DISEASE**
- Deep Venous Thrombosis of Lower Extremities (W0135)
- Lung Transplant (W0076)
- Pulmonary Embolism (W0134)

**UROLOGY**
- Prostatectomy, Transurethral, Alternatives to Standard Resection (W0029)
- Renal Transplant (W0027)

**CUSTOMIZATIONS - GENERAL RECOVERY CARE GUIDELINES (GRG)**

**BODY SYSTEM GRG**
- Cardiovascular Surgery or Procedure GRG (W0099)
- General Surgery or Procedure GRG (W0142)
- Musculoskeletal Surgery or Procedure GRG (W0118)
- Neurosurgery or Procedure GRG (W0119)
- Obstetric and Gynecologic Surgery or Procedure GRG (W0143)
- Urologic Surgery or Procedure GRG (W0141)

**GENERAL RECOVERY GUIDELINES TOOLS SECTION**
- Inpatient Palliative Care Criteria (W0086)

**PROBLEM ORIENTED GRG**
- Medical Oncology GRG (W0074)
CUSTOMIZATIONS – BEHAVIORAL HEALTH CARE (BHG) GUIDELINES

- TESTING PROCEDURES
  - Urine Toxicology Testing (W0150)
- THERAPEUTIC SERVICES
  - Applied Behavioral Analysis (W0153)
  - Transcranial Magnetic Stimulation (W0151)

CUSTOMIZATION HISTORY

Return to Index

CUSTOMIZATIONS – BACKGROUND INFORMATION

Types of Customizations:
1. Customizations to MCG care guidelines clinical indications based on integration with our medical policy and clinical UM guidelines and other third party criteria.
2. Customizations to MCG care guidelines clinical indications with changes to the original MCG criteria which include adding or revising appropriateness criteria.
3. Customizations to MCG care guidelines goal length of stay with changes to the original MCG criteria.
4. Other customizations to MCG care guidelines may include adding reference(s), or other changes to MCG care guidelines.

Review and Approval of Customizations:
The Medical Policy & Technology Assessment Committee (MPTAC) reviews and approves all customizations to MCG care guidelines. In addition, when a new edition of MCG care guidelines is released, the new edition is approved by the MPTAC.

Disclaimer:
Customized guidelines include a disclaimer at the top of the guideline after the guideline title indicating: This guideline contains custom content that has been modified from the standard care guidelines and has not been reviewed or approved by MCG Health, LLC.

Guideline History:
All customized guidelines include a “Guideline History” section that provides (1) the date of the Medical Policy & Technology Assessment Committee (MPTAC) meeting review and approval of the customization, and (2) a summary of the customization to the MCG care guidelines.

| CV Surgery - Aortic Valve Replacement, Transcatheter (W0133) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Revised Clinical Indications for Procedure: For transcatheter aortic valve replacement, see the following:  
  - SURG.00121 Transcatheter Heart Valve Procedures |
| CV Surgery - Cardiac Septal Defect: Atrial, Transcatheter Closure (W0016) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Included note under Clinical Indications for Procedure: For transcatheter closure of patent foramen ovale (PFO), see SURG.00032 Transcatheter Closure of Patent Foramen Ovale and Left Atrial Appendage for Stroke Prevention |
| CV Surgery - Cardiac Septal Defect: Ventricular, Repair (W0093) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Included note under Clinical Indications for Procedure: For transmyocardial/perventricular device closure of ventricular septal defects, see SURG.00123 Transmyocardial/Perventricular Device Closure of Ventricular Septal Defects |
| CV Surgery - Cardiac Valve Replacement or Repair (W0089) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Included note under Clinical Indications for Procedure: When the procedure uses the transcatheter approach (as opposed to open), see SURG.00121 Transcatheter Heart Valve Procedures |
| CV Surgery - Heart Transplant (W0017) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Revised Clinical Indications for Procedure: For heart transplant, see the following:  
  - TRANS.00026 Heart/Lung Transplantation  
  - TRANS.00033 Heart Transplantation |
| CV Surgery - Percutaneous Revascularization, Lower Extremity (W0121) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Revised Clinical Indications for Procedure: For percutaneous revascularization, lower extremity, see the following:  
  - CG-SURG-49 Endovascular Techniques (Percutaneous or Open Exposure) for Arterial Revascularization of the Lower Extremities |
| CV Surgery - Sympathectomy by Thoracoscopy or Laparoscopy (W0044) | Publish Date: June 24, 2019  
March 21, 2019 MPTAC review:  
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
- Included note under Clinical Indications for Procedure: For treatment of hyperhidrosis, see CG-MED-63 Treatment of Hyperhidrosis  
- Revised Clinical Indications for Procedure:  
  - Removed MCG clinical indication for hyperhidrosis |
### Common Complications and Conditions

**Preoperative Days (W0130)**

- **Publish Date:** June 24, 2019
- **March 21, 2019 MPTAC review:**
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review
- **March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
  - Included note under Clinical Indications for Inpatient Care: For preoperative days for select musculoskeletal services reviewed with Musculoskeletal Program Clinical Guidelines, see Musculoskeletal Program Clinical Appropriateness Guidelines: Preoperative Admission
  - Revised Clinical Indications for Inpatient Care:
    - For inpatient preoperative days, added indication, Conversion from warfarin (Coumadin®) to IV heparin for patients with mechanical heart valves or other high risk patients with contraindications to low-molecular-weight heparin (LMWH) or fractionated heparin
  - Added reference

**Venous Thrombosis and Pulmonary Embolism (W0136)**

- **Publish Date:** June 24, 2019
- **March 21, 2019 MPTAC review:**
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review
- **March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
  - Included note under Clinical Indications for Inpatient Care: For vena cava filter placement, see CG-SURG-59 Vena Cava Filters
  - Revised Clinical Indications for Inpatient Care:
    - Removed MCG clinical indications for vena cava filter placement

### General Surgery

**- Fundoplasty, Esophagogastric, by Laparoscopy (W0158)**

- **Publish Date:** June 24, 2019
- **March 21, 2019 MPTAC review:**
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review
- **March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
  - Included note under Clinical Indications for Procedure: For paraesophageal hernia repair, see CG-SURG-92 Paraesophageal Hernia Repair

**- Gastric Restrictive Procedure with Gastric Bypass**

- **Title change to:**
  - Gastric Restrictive Procedure with or without Gastric Bypass (W0054)

- **Publish Date:** June 24, 2019
- **March 21, 2019 MPTAC review:**
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review
- **March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
  - Title changed from Gastric Restrictive Procedure with Gastric Bypass to indicate Gastric Restrictive Procedure with or without Gastric Bypass
  - Revised Clinical Indications for Procedure: For gastric restrictive procedure with or without gastric bypass, see the following:
    - CG-SURG-83 Bariatric Surgery and Other Treatments for Clinically Severe Obesity
  - Updated Coding section with the following:
    - Added ICD-10 Procedure codes: 0D190ZB, 0DB60Z3, 0DV60CZ, 0DW60CZ
    - Added CPT® codes: 43842, 43843, 43845, 43848

**- Gastric Restrictive Procedure with Gastric Bypass by Laparoscopy (W0014)**

- **Publish Date:** June 24, 2019
- **March 21, 2019 MPTAC review:**
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review
- **March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
  - Revised Clinical Indications for Procedure: For gastric restrictive procedure with gastric bypass by laparoscopy, see the following:
    - CG-SURG-83 Bariatric Surgery and Other Treatments for Clinically Severe Obesity
  - Updated Coding section with the following:
### General Surgery - Gastric Restrictive Procedure without Gastric Bypass by Laparoscopy (W0033)

**Inpatient & Surgical Care (ISC) Guideline Title**

**Publish Date:** June 24, 2019  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure: For gastric restrictive procedure without gastric bypass by laparoscopy, see the following:
  - CG-SURG-83 Bariatric Surgery and Other Treatments for Clinically Severe Obesity

**Added ICD-10 Procedure codes:** 0D164Z9, 0DB64ZZ

---

### General Surgery - Gastric Restrictive Procedure, Sleeve Gastrectomy, by Laparoscopy (W0102)

**Inpatient & Surgical Care (ISC) Guideline Title**

**Publish Date:** June 24, 2019  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure: For gastric restrictive procedure, sleeve gastrectomy, by laparoscopy, see the following:
  - CG-SURG-83 Bariatric Surgery and Other Treatments for Clinically Severe Obesity

---

### General Surgery - Hiatal Hernia Repair, Abdominal (W0159)

**Inpatient & Surgical Care (ISC) Guideline Title**

**Publish Date:** June 24, 2019  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Included note under Clinical Indications for Procedure: For paraesophageal hernia repair, see CG-SURG-92 Paraesophageal Hernia Repair

---

### General Surgery - Hiatal Hernia Repair, Transthoracic (W0160)

**Inpatient & Surgical Care (ISC) Guideline Title**

**Publish Date:** June 24, 2019  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Included note under Clinical Indications for Procedure: For paraesophageal hernia repair, see CG-SURG-92 Paraesophageal Hernia Repair

---

### General Surgery - Liver Transplant (W0034)

**Inpatient & Surgical Care (ISC) Guideline Title**

**Publish Date:** June 24, 2019  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure: For liver transplant, see the following:
  - TRANS.00008 Liver Transplantation

---

### General Surgery - Mastectomy, Complete (W0002)

**Inpatient & Surgical Care (ISC) Guideline Title**

**Publish Date:** June 24, 2019  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure:
  - For risk-reduction mastectomy and significantly elevated risk of breast cancer, added indications:
    - Personal history of breast cancer
    - Noninvasive histology indicating risk (eg, lobular carcinoma in situ or atypical hyperplasia)
    - Extensive mammographic abnormalities (eg, calcifications) exist such that adequate biopsy is impossible
  - Information regarding Federal or State mandates will supersede the guideline Length of Stay when applicable included under both Clinical Indications section and Goal Length of Stay (GLOS) section
  - Revised Goal Length of Stay (GLOS) to indicate 2 days postoperative rather than Ambulatory
  - Under the Goal Length of Stay (GLOS) section added:
    - Reason: Organization approved 2 day stay
    - Context: Organization accepted variance of 2 days
  - Revised Operative Status Criteria to indicate Inpatient rather than Ambulatory
  - Added references

March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
  - Information regarding Federal or State mandates will supersede the guideline Length of Stay when applicable included under both Clinical Indications section and Goal Length of Stay (GLOS) section  
  - Revised Goal Length of Stay (GLOS) to indicate 2 days postoperative rather than Ambulatory  
  - Under the Goal Length of Stay (GLOS) section added:  
    - Reason: Organization approved 2 day stay  
    - Context: Organization accepted variance of 2 days  
  - Revised Operative Status Criteria to indicate Inpatient rather than Ambulatory |
| **Hematology - Oncology - Chemotherapy (W0162)** | **Publish Date: November 1, 2019**  
June 6, 2019 MPTAC review:  
- Approval of May 16, 2019 Third Party Criteria Subcommittee of the MPTAC review  
May 16, 2019 Third Party Criteria Subcommittee of the MPTAC review:  
  - Revised Clinical Indications for Admission:  
    - Added examples for:  
      - Aggressive hydration needs that cannot be managed in an infusion center  
      - Prolonged marrow suppression  
    - Added Regimens that cannot be managed as an outpatient with examples |

| OB / GYN - Cesarean Delivery (W0045) | Publish Date: June 24, 2019 | March 21, 2019 MPTAC review:  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review: | • Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review: | • Revised Clinical Indications for Procedure:  
  o Retained MCG clinical indications for emergency cesarean delivery  
  o Added clinical indications for early elective cesarean delivery  
  o Revised MCG clinical indications for elective cesarean delivery  
  • Information regarding Federal or State mandates will supersede the guideline Length of Stay when applicable included under both Clinical Indications section and Goal Length of Stay (GLOS) section  
  • Added references  
  • Included note under Codes: Additional ICD-10 diagnosis codes may apply to this guideline when the requested service is for early elective delivery. This is not an all-inclusive list of codes that may apply |
| OB / GYN - Hysterectomy, Abdominal (W0109) | Publish Date: June 24, 2019 | March 21, 2019 MPTAC review:  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review: | • Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review  
March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review: | • Revised Clinical Indications for Procedure:  
  • For abnormal uterine bleeding:  
    • Added indication, Alternative hormonal medical treatment has been considered including the levonorgestrel-releasing intrauterine system or systemic hormonal therapy unless 1 or more of the following conditions exist:  
      • Either the levonorgestrel-releasing intrauterine system or systemic hormonal therapy was tried but did not adequately treat patient's condition  
      • Both the levonorgestrel-releasing intrauterine system and systemic hormonal therapy are Contraindicated or not tolerated  
      • Both the levonorgestrel-releasing intrauterine system and systemic hormonal therapy are not appropriate for the severity of patient's condition  
    • Removed indication, Hormonal therapy (eg, intrauterine delivery system or systemic hormonal therapy) cannot be used because of 1 or more of the following:  
      • It is contraindicated |
### Customizations to Inpatient & Surgical Care (ISC) Guideline Title

- It was tried but did not adequately treat patient's condition
- It is not appropriate for severity of patient's condition (eg, severe persistent bleeding)
  - “Uterine-sparing procedure (eg, endometrial ablation)” changed to “Endometrial ablation” cannot be used because of **1 or more** of the following:
  - For endometrial ablation, added indication, The patient or her physician has determined that endometrial ablation is not appropriate or acceptable
  - For endometrial ablation, removed indications,
  - Procedure not appropriate for severity of patient's condition
  - Hysterectomy preferred (eg, patient concern about recurrence after endometrial ablation)
  - Added contraindications for levonorgestrel-releasing intrauterine system or systemic hormonal therapy or oral tranexamic acid and related references
    - For leiomyoma (“fibroid”),
      - “Investigation (eg, endometrial sampling) has ruled out other causes for symptoms” changed to “Investigation has ruled out other causes for symptoms”
      - “Alternative treatment (eg, myomectomy, hormonal therapy, hysteroscopic resection, uterine artery embolization) cannot be used because of **1 or more** of the following:” changed to “Alternative treatment (eg, one or more of the following treatments, myomectomy, hormonal therapy, hysteroscopic resection, uterine artery embolization) cannot be used because of **1 or more** of the following reasons:”
    - For pelvic organ prolapse,
      - “Uterine-sparing treatment (eg, pessary, apical (uterine) vault prolapse suspension) cannot be used because of **1 or more** of the following:” changed to “Uterine-sparing treatment (eg, one or more of the following treatments, pessary, pelvic floor physical therapy, uterine suspension procedure) cannot be used because of **1 or more** of the following reasons:”
  - Added indication for when abdominal hysterectomy is considered not medically necessary:
    - Abdominal hysterectomy is considered **not medically necessary** for all other indications not listed above, including but not limited to, the treatment of asymptomatic leiomyomata when performed for any of the following reasons:
      - To improve detection of adnexal masses, or
      - To prevent impairment of renal function, or
      - To rule out malignancy
  - Included note under Clinical Indications for Procedure: For abnormal uterine bleeding, oral tranexamic acid may be considered unless:
    - Oral tranexamic acid is Contraindicated or not tolerated, or
    - Oral tranexamic acid is not appropriate for the severity of patient's condition, or
    - The patient or her physician has determined that oral tranexamic acid is not appropriate or acceptable

### OB / GYN - Hysterectomy, Laparoscopic

- Title change to: Hysterectomy, Laparoscopic; Hysterectomy, Vaginal, Laparoscopically-Assisted (W0010)

### Publish Date: June 24, 2019

- March 21, 2019 MPTAC review:
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

- March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:
  - Title changed from Hysterectomy, Laparoscopic to indicate Hysterectomy, Laparoscopic; Hysterectomy, Vaginal, Laparoscopically-Assisted
  - Revised Clinical Indications for Procedure:
    - For abnormal uterine bleeding:
      - Added indication, Alternative hormonal medical treatment has been considered including the levonorgestrel-releasing intrauterine system or systemic hormonal therapy unless **1 or more** of the following conditions exist:
        - Either the levonorgestrel-releasing intrauterine system or systemic hormonal therapy was tried but did not adequately treat patient's condition
        - Both the levonorgestrel-releasing intrauterine system and systemic hormonal therapy are Contraindicated or not tolerated
        - Both the levonorgestrel-releasing intrauterine system and systemic hormonal therapy are not appropriate for the severity of patient's condition
      - Removed indication, Hormonal therapy (eg, intrauterine delivery system or systemic hormonal therapy) cannot be used because of **1 or more** of the following:
        - It is contraindicated
        - It was tried but did not adequately treat patient's condition
        - It is not appropriate for severity of patient's condition (eg, severe persistent bleeding)

**OB / GYN - Laparoscopic Gynecologic Surgery, Including Myomectomy, Oophorectomy, and Salpingectomy (W0026)**

**Publish Date: June 24, 2019**

**March 21, 2019 MPTAC review:**

- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**

- Included the following notes under Clinical Indications for Procedure:
  o For laparoscopic surgical ablation of uterine fibroids, see SURG.00077 Uterine Fibroid Ablation: Laparoscopic or Percutaneous Image Guided Techniques
  o For the evaluation of infertility, see CG-SURG-34 Diagnostic Infertility Surgery
- Revised Clinical Indications for Procedure:
  o “Prophylactic bilateral salpingo-oophorectomy” changed to “Risk-reducing salpingo-oophorectomy”
  o For premenopausal female with estrogen or progesterone receptor-positive breast cancer, “Bilateral oophorectomy” changed to “Risk-reducing oophorectomy or risk-reducing salpingo-oophorectomy”
- Additional indication listed for oophorectomy:
  o Risk-reducing salpingo-oophorectomy for the presence of two or more first degree relatives (eg, mother, sister, daughter) or one first degree relative and one or more second degree relatives (maternal or paternal grandmother, aunt or niece) with a history of ovarian cancer
  o Removed MCG indications for infertility evaluation or treatment

**OB / GYN - Laparotomy, for Gynecologic Surgery, Including Myomectomy, Oophorectomy, and Salpingectomy (W0025)**

**Publish Date: June 24, 2019**

**March 21, 2019 MPTAC review:**

- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**

- Revised Clinical Indications for Procedure:
  o “Prophylactic bilateral salpingo-oophorectomy” changed to “Risk-reducing salpingo-oophorectomy”

### OB / GYN - Repair of Pelvic Organ Prolapse (W0183)

**Publish Date: November 1, 2019**

- Updated Coding Section with the following:
  - Added CPT® codes: 57284, 57285, 57423

### OB / GYN - Vaginal Delivery (W0047)

**Publish Date: June 24, 2019**  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure:
  - Removed MCG clinical indications for when induction of labor is appropriate
  - Added clinical indications for elective induction of labor
  - Added clinical indications for early elective induction of labor
- Information regarding Federal or State mandates will supersede the guideline Length of Stay when applicable included under both Clinical Indications section and Goal Length of Stay (GLOS) section
- Added references
- Included note under Codes: Additional ICD-10 diagnosis codes may apply to this guideline when the requested service is for early elective delivery. This is not an all-inclusive list of codes that may apply

### OB/GYN - Vaginal Delivery, Operative (W0048)

**Publish Date: June 24, 2019**  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Included note under Clinical Indications for Procedure: For early elective vaginal delivery, see W0047 Vaginal Delivery
- Information regarding Federal or State mandates will supersede the guideline Length of Stay when applicable included under both Clinical Indications section and Goal Length of Stay (GLOS) section

### Orthopedics

**Return to Index**

### Orthopedics - Acromioplasty and Rotator Cuff Repair (W0139)

**Publish Date: June 24, 2019**  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure: For acromioplasty and rotator cuff repair, see the following:
  - Musculoskeletal Program Clinical Guidelines
  - Musculoskeletal Program Clinical Appropriateness Guidelines
  - Level of Care Guidelines and Preoperative Admission Guidelines
- Included note under both Operative Status Criteria and Goal Length of Stay (GLOS): For acromioplasty and rotator cuff repair, see Musculoskeletal Program Clinical Appropriateness Guidelines, Level of Care Guidelines and Preoperative Admission Guidelines

### Orthopedics - Ankle Arthroscopy (W0155)

**Publish Date: June 24, 2019**  
**March 21, 2019 MPTAC review:**
- Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

**March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:**
- Revised Clinical Indications for Procedure:
  - Removed MCG clinical indication for osteochondral lesions
  - Included note under Clinical Indications for Procedure, Operative Status Criteria and Goal Length of Stay (GLOS): For ankle arthroscopy for osteochondral lesions, see Musculoskeletal Program Clinical Appropriateness Guidelines, Level of Care Guidelines and Preoperative Admission Guidelines

## General Recovery Guidelines (GRG)

### General Recovery Guidelines Tools Section

**General Recovery Guidelines Tools Section**

Inpatient Palliative Care Criteria (W0086)

**Publish Date:** June 24, 2019

- March 21, 2019 MPTAC review:
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:

- Revised Alternatives to Admission
  - For Home hospice added the following:
    - Outpatient: Continuous Home Care (CHC)
    - Outpatient: Routine Home Care
    - Patients who may benefit from hospice care
    - Nursing care
  - Added reference

### Problem Oriented Medical Oncology GRG (W0074)

**Publish Date:** June 24, 2019

- March 21, 2019 MPTAC review:
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:

- Revised Clinical Indications for Admission to Inpatient Care:
  - For (a) chimeric antigen receptor (CAR) T-cell therapy, (b) transcatheter arterial chemoembolization, (c) high-dose radioactive iodine or radioactive implant treatments needing inpatient admission, and (d) hematopoietic stem cell transplantation, see the applicable clinical document
  - Revised Clinical Indications for Admission to Inpatient Care:
    - Removed MCG clinical indications for allogeneic and autologous hematopoietic stem cell transplant

---

## CUSTOMIZATIONS – BEHAVIORAL HEALTH CARE GUIDELINES (BHG)

### Testing Procedures

**Testing Procedures Urine Toxicology Testing (W0150)**

**Publish Date:** June 24, 2019

- March 21, 2019 MPTAC review:
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:

- Revised Clinical Indications for Procedure: For urine toxicology testing, see the following:
  - CG-LAB-09 Drug Testing or Screening in the Context of Substance Use Disorder and Chronic Pain

### Therapeutic Services

**Therapeutic Services Applied Behavioral Analysis (W0153)**

**Publish Date:** June 24, 2019

- March 21, 2019 MPTAC review:
  - Approval of March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review

March 4, 2019 Third Party Criteria Subcommittee of the MPTAC review:

- Revised Clinical Indications for Procedure: For applied behavioral analysis (ABA), see the following:
